Opis produktu

A Silicone Intake Hose for the Mini Cooper S (R56 Model - 2007-2012). If you are in any doubt if this fits, please check the location of the breather hose on your car, and see if its in the same location as this hose - if its lower down nearer the inlet to the turbo you will need the FMINLR60

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
