Cena brutto	183,17 zł
Cena netto	183,17 zł
Dostępność	Na zamówienie
Numer katalogowy	379173181
Kod producenta	FMIBTH251

Opis produktu

This hose fits directly to the turbo. It is made from high temperature resistant Silicone compound and nomex reinforced to withstand the high pressures that may be experienced on tuned engines. This is the perfect replacement for the OEM hose which can fail when engine performance has been increased. Suitable for the SEAT MK2 (6K2) Ibiza 1.8T with (K03) standard fitment turbocharger. Available in Ocre colour only Please be aware that these hoses were patterned from right hand drive vehicles. Whilst we believe these to be correct for left hand drive vehicles we suggest that you visually check their suitability, as replacement items, with those fitted to your own vehicle, before attempting installation.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
