Opis produktu

Single Nozzle System with 10Lb Bottle for Ford Coyote 5.0 (35-150Hp)

Nitrous Express has combined performance, quality and easy installation in this new nitrous system engineered specifically for the 2011 Ford 5.0 Coyote engine. This system includes an Autolearn TPS switch which allows the nitrous to activate only at wide open throttle. A direct-plug-in Fuel Line Adapter is provided to simplify installation (no need to cut your factory fuel lines). The system includes the billet aluminum and carbon fiber Lightning series solenoids, the patented Shark nozzle, a nozzle mounting adapter, systems with a bottle include the new billet aluminum Lightning bottle valve, extra long stainless braided N2O line, stainless bottle brackets, master arming switch, relay, relay harness and all necessary hardware to complete the installation. Includes jetting for 35, 50, 75, 100, 125 and 150HP. The system can be easily upgraded to power levels up to 250 wheel horsepower! Fits 2011 Ford GT Mustangs with the 5.0L 4 valve coyote engine.

If you have an aftermarket engine management system that is capable of adding nitrous enrichment fuel and want this system DRY (no fuel components), please contact us
