Opis produktu

A perfect blend of classic and modern, past and future, this Sparco Pro 2000 QRT Martini Racing seat reflects the revival of the historic partnership between Sparco and Martini Racing by offering you a uniquely designed range with state-of-the-art technology and maximum safety. Equipped with QRT technology, this seat is both light thanks to its fiberglass shell and comfortable with a non-slip fabric for better support of the shoulders and seat. The leg and seat cushions can be subdivided for added comfort. The lower attachments are attached directly to the bases. The M8 side attachments have a 290mm spacing. End of validity : 31-12-2029 What is QRT technology? Created and developed in Italian laboratories, QRT technology is based on aerospace technologies. This innovative production method is able to generate the lightest and strongest fiberglass bucket seat shells on the market, guaranteeing a 30% weight reduction compared to standard seats!
