Opis produktu

SPARCO PRO 2000 SEAT - QRT- GT2I TECHNOLOGY The Sparco Pro 2000 QRT seat is equipped with a black non-slip fabric on the shoulders and seat for better support during the race or even in rally and in all motorsport disciplines. This Sparco PRO 2000 QRT seat is ultra comfortable and ergonomic thanks to its leg rest and seat cushions that can be subdivided and its lateral lumbar cushions. It will provide unparalleled comfort to your team driver. Features of the Sparco PRO 2000 seat It will offer an excellent lateral support in turn and will allow the driver and his co-driver/passenger to concentrate on his race without worrying about an uncomfortable position. Indeed, in motorsport, comfort is an essential element. The driver is directly linked to the chassis of his vehicle and thus feels the behavior of the latter. They will be much more adapted to the practice of the race than the seats of original cars. The FIA standard also guarantees excellent protection in case of impact and thus ensures the highest quality standard. This seat has a validity period of 5 years (FIA8855-1999). These seats are fixed, so they are not reclining or folding, they do not have adjustments or armrests. If you are interested in this type of seat we have a range of folding adjustable semi-seats offering these various seat and backrest adjustments. What is QRT technology? Created and developed in Italian laboratories, QRT technology is based on aerospace technology and offers a standard of quality unmatched in motor racing. This innovative production method is able to generate the lightest and strongest fiberglass/composite seat shells on the market, guaranteeing a 30% weight reduction compared to standard seats! These lightweight seats will improve the power-to-weight ratio of your sports car by offering a gain of several kilos per seat! We also have everything you need to install your seats with fixing kits and in particular: aluminium slides, rails, brackets for side fixings, screws. This black fabric model is not made of imitation leather, but there are equivalent models from the Sparco range in imitation leather and others in black leather or red fabric. Other models are also available for you and your passenger with headrests perfect for your vehicles not adapted to car racing (Ford, Ferrari, Alpine, Opel Opc) Details for Sparco PRO 2000 QRT FIA: The lower fasteners are attached directly to the seat bases. The M8 side fasteners have a 290mm gap.
