Opis produktu

Thanks to its size, this Sparco PRO ADV QRT seat can be used in both touring and rally vehicles. Comfort and safety are represented by a fireproof fabric lining and a non-slip fabric for the shoulders and seat support. The seat and leg cushions are divisible. The M8 side ties are attached with a 290mm gap. What is QRT technology? Created and developed in Italian laboratories, QRT technology is based on aerospace technologies. This innovative production method is able to generate the lightest and strongest fiberglass bucket seat shells on the market, guaranteeing a 30% weight reduction compared to standard seats!
