### Opis produktu

The QRT line expands with this Sparco REV QRT seat making it an ultra compact seat. With its non-slip fabric to support the shoulders and seat while riding and self-extinguishing fabric lining combined with the leg and seat cushion, you won't want to leave the comfort of this seat even after a long ride. The M8 side brackets are fixed with a distance of 290mm. What is QRT technology? Created and developed in Italian laboratories, QRT technology is based on aerospace technologies. This innovative production method is able to generate the lightest and strongest fiberglass bucket seat shells on the market, guaranteeing a 30% weight reduction compared to standard seats!
