Suzuki, Toyota, and Lexus Wheel Spacer

Cena brutto	188,73 zł
Cena netto	188,73 zł
Dostępność	Na zamówienie
Numer katalogowy	379176689

Opis produktu

Before fitment, please ensure the spacer fits flat to the back of the wheel. Please also test for clearance after fitment at the wheel arch under full right and left wheel lock. These have a bore size of 60.1mm

These spacers are suitable for many Suzuki, Toyota and Lexus vehicles, but please check the compatibility list below or contact us to be sure.

These CNC machined precision alloy wheel spacers are available in 5mm, 15mm, and 20mm thickness with a 60.1mm bore and 5 x 114.3mm PCD stud bolt pattern. The Forge spacers can give a maximum of 40mm increase in track width.

Machined in the UK and anodised black to inhibit corrosion and "bonding" to the wheel or hub, 15mm and 20mm are machined with an alloy spigot to allow centering on the hub (often called "hubcentric" spacers). Sizes 15mm and 20mm are hubcentric and 5mm are not hubcentric.

PLEASE NOTE: Extended wheel bolts/ studs are not included

Please choose required size from the drop-down list. These are sold as a pair. Extended wheel bolts are not supplied.

**In the Box:
2 x Wheel Spacer
1 x Forge Sticker**

All Forge wheel spacers are manufactured from 6082 alloy

Application List:

Chery Tiggo (2005-) (45 Offset)
Fiat Sedici (2006-2016) (50 Offset)
Lexus GS300 (1998-2005) (50 Offset)
