## Termostat Mishimoto Ford F-150 EcoBoost/V6/V8 2011+ 71C/160F

Cena brutto	<b>306,00 zł</b>
Cena netto	<b>248,78 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>331390176</b>
Kod producenta	<b>MMTS-MUS8-11</b>

### Opis produktu

Hot days at the drag strip or road course will wreak havoc on the cooling system of your Mustang. An unreliable and inefficient setup can lead to overheating and potential engine damage. Mishimoto is proud to release an all-new racing thermostat specifically engineered for your 2011+ Ford Mustang V6/V8. Mishimoto racing thermostats promote greater cooling efficiency by significantly decreasing high engine temperatures. Once the engine is fully warmed up, the Mishimoto low-temperature racing thermostat will open at a lower temperature (160°F) compared to standard thermostats (180/188°F). This allows coolant to flow through the engine sooner, thus reducing and maintaining cooler engine temperatures. As with all our Mustang performance parts, this thermostat includes the Mishimoto Lifetime Warranty. Direct fit for the 2011+ Ford Mustang V6 & V8. Lower activation temp allows coolant to flow through the engine earlier. Maintains lower temperatures and extends engine life. Mishimoto Activation: 160°F (71°C) / OEM Activation: 180°F (82°C). Mishimoto Lifetime Warranty
