Numer katalogowy	<b>331390180</b>
Kod producenta	<b>MMTS-MUS-86A</b>

### Opis produktu

The Mishimoto street thermostat for the 1986-1995 Ford Mustang will promote greater cooling efficiency for daily driven engines. Once the engine is fully warmed up the Mishimoto street thermostat will open up at a slightly lower temperature than OEM thermostats, allowing the coolant to flow through the engine sooner thus reducing and maintaining cooler engine temperatures. The Mishimoto street thermostat is specifically engineered to maintain optimal temperatures for daily street driving conditions.

- Fits the 1986-1995 Ford Mustang GT/Cobra
- Lower activation temp allows coolant to flow through the engine earlier
- Maintains lower temperatures and extends engine life
- Mishimoto Activation: 179.6°F (82°C) / OEM Activation: 190.4°F (88°C)
- Mishimoto Lifetime Warranty
