## Termostat Mishimoto Ford Mustang V8 2005-2010 71C/160F

Cena brutto	<b>295,27 zł</b>
Cena netto	<b>240,06 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>331390173</b>
Kod producenta	<b>MMTS-MUS-05L</b>

### Opis produktu

**This item also fits additional vehicles. See Tech Specs below.**

Hot days at the drag strip or road course will wreak havoc on the cooling system of your Mustang. An unreliable and inefficient setup can lead to overheating and potential engine damage. Mishimoto is proud to release an all-new racing thermostat specifically engineered for your 2005-2010 Ford Mustang. Mishimoto racing thermostats promote greater cooling efficiency by significantly decreasing high engine temperatures. Once the engine is fully warmed up, the Mishimoto low-temperature racing thermostat will open at a lower temperature (160°F) compared to standard thermostats (180°F). This allows coolant to flow through the engine sooner, thus reducing and maintaining cooler engine temperatures. As with all our products, this thermostat includes the Mishimoto Lifetime Warranty

- Fits the 2005-2010 Ford Mustang V8
- Lower activation temp allows coolant to flow through the engine earlier
- Maintains lower temperatures and extends engine life
- Mishimoto Activation: 160°F (71°C) / OEM Activation: 180°F (82°C)
- Mishimoto Lifetime Warranty
