### Opis produktu

**This item also fits additional vehicles. See Tech Specs below.**

Mishimoto has developed a racing thermostat specifically designed for the LT1- powered Chevrolet Camaro. Mishimoto racing thermostats promote greater cooling efficiency by significantly decreasing high engine temperatures. Once the engine is fully warmed up, the Mishimoto low-temperature racing thermostat will open at a lower temperature (160°F) compared to standard thermostats (180°F). This allows coolant to flow through the engine sooner, thus reducing and maintaining cooler engine temperatures. Whether you take your Camaro to the strip or to a show, a reliable cooling system is a must. As with all our products, this thermostat includes the Mishimoto Lifetime Warranty

- FITS: 1993-97 Camaro, 1994-96 Roadmaster, 1994-96 Fleetwood, 1994-96 Caprice
- FITS: 1992-96 Corvette, 1994-96 Impala SS, 1993-97 Firebird
- Lower activation temp allows coolant to flow through the engine earlier
- Mishimoto Activation: 160Å,Å°F (71Å,Å°C) / OEM Activation: 186Å,Å°F (85.5Å,Å°C)
- Mishimoto Lifetime Warranty
