Cena brutto	830,00 zł
Cena netto	674,80 zł
Cena poprzednia	885,31 zł
Dostępność	Na zamówienie
Numer katalogowy	331389604
Kod producenta	MMOP-EXTFC

Opis produktu

Looking for ideal fluid temperature regulation for your next project? Mishimoto has the answer with our innovative, ingenious Inline Oil Thermostat. This sleek unit features a perfect blend of both form and function, and is precision-engineered to properly regulate engine oil, transmission fluid, or any other driveline fluid. The Mishimoto Inline Oil Thermostat is CNC-machined from a single piece of billet 6061 aluminum. This component is ideal for projects where space or clearance places a constraint on using a standard oil sandwich plate. The included thermostat regulates temperatures at 185°F (85°C), which is easily interchanged with our 160°F (71°C) and 200°F (93°C) thermostat units to accommodate to any project. This in-line thermostat includes four -10AN fittings with dowty seals for leak-free line connections. Additionally, this thermostat includes a CNC-machined heat-sink which provides an enhancement in style and helps to reduce fluid temperatures. This also includes a universal mounting bracket and the Mishimoto Lifetime Warranty

- Universal fitment with a compact design
- Overall Size: 3.95" x 2.05" x 1.3" / Thermostat: 185°F (85°C)
- Machined from billet 6061 CNC'd aluminum
- Thermostat can be replaced with 160°F or 200°F options
- Mishimoto Lifetime Warranty
