## Tłoki odprężające MANLEY Toyota 2JZ 86.5mm

Cena brutto	<b>6 062,65 zł</b>
Cena netto	<b>4 928,98 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>331078535</b>
Kod producenta	<b>USA-MAN-629105C-6</b>

### Opis produktu

Manley Piston Set, PIST-SUPRA 86.5mm/1.180 CD/DISH.

Our signature "Platinum Series" pistons feature 2618 alloy forgings, proven cam and barrel skirt profiles, tool steel wrist pins, and moly skirt coatings on select part numbers. Join the ranks of professional engine builders and tuners who rely on Manley pistons for superior performance and durability.

2618 Alloy Forgings: We use domestic 2618 alloy forgings, ensuring superior strength and performance. Chrome Moly Wrist Pins: Premium Chrome Moly wrist pins come standard with our Standard Series Pistons. For select SKUs, we offer wrist pin upgrades to 9310 and Turbo Tuff/DLC alloys, providing additional durability. Exacting Ring Lands and Grooves: We adhere to strict standards for piston ring lands and grooves, resulting in enhanced ring seal and more power. Cam and Barrel Profiles: Our pistons boast cam and barrel (skirt) profiles that generate substantial power while being gentle on cylinder walls. Unique Fixturing: Manley's unique fixturing allows for skirt turning and ring groove machining in a single operation, ensuring ultimate ring groove to skirt squareness.

Product Market	Sport Compact
Bore Diameter	86.50 MM
Compression Height	1.180 IN
Piston Volume	-16.00 CC
Weight	322 GR
Piston Series	Platinum Series
Product Type	Engine Piston Kit
Piston Quantity	6
Engine Stroke	94.00 MM
Bore Oversize	+0.50 MM
Piston Head Type	Dish
Compression Ratio	10.00:1 CC
Piston Sub-Series	Standard
