Turbo Actuator for Ford Focus ST

Cena brutto	1 235,80 zł
Cena netto	1 235,80 zł
Dostępność	Na zamówienie
Numer katalogowy	379172820

Opis produktu

Highlights:

- Choice of spring pressures to suit your car
- Manufactured from 6026 grade aluminium
- Vehicle specific
- Turbo specific
- Built to order
- Machined and hand polished in the UK
- Choice of piston or diaphragm operation on most actuators
- Nomex reinforced flurosilicone diaphragms
- Laser cut stainless steel brackets (where applicable)
- Tuning and service kits available
- Made in England
- Lifetime warranty*

Forge Motorsport were one of the first company's in the world to design and manufacture the billet two-piece replacement aluminium turbo actuator. Originally for the Cosworth, Renault 5 GT turbo, and Lancia Integral turbos, we soon developed the largest and most diverse range of actuator replacements.

The Turbo Actuator for Ford Focus ST is a high-performance replacement part designed by Forge Motorsport. It is manufactured from **6026 grade aluminium**, making it durable and long-lasting. This turbo actuator is vehicle-specific and turbo-specific, ensuring a **perfect fit and optimal performance**. It is machined and hand polished in the UK, guaranteeing superior quality.

One of the standout features of this product is the choice of spring pressures to suit your car. This allows you to fine-tune and manage your specific boost requirements, resulting in improved response and better control. The actuator is built with a predetermined actuator spring suitable for factory boost levels, but can be assembled with a stronger spring upon request for tuned vehicles. It also features a Nomex reinforced flurosilicone diaphragm, laser-cut stainless steel bracket, and comes with a **lifetime warranty**.

The Turbo Actuator for Ford Focus ST is a fantastic upgrade for your vehicle. It is easy to set up and install, providing an instant improvement in performance. You don't even need to remap your car to experience the difference.

☐ Fantastic actuator, really easy to set up and install, noticed the difference instantly without having the car remapped. Old actuator gave up a few months back. Finally I have boost back! ☐

Please Note:

The pressure figures listed in the drop-down menu above are minimum regulated pressure figures. If you are unsure, please don't hesitate to call us on 01452 380999.

When you fit a Forge turbo actuator you will be able to fine tune and manage your specific boost requirements, this will allow for improved response and better control. This product is built with
