Cena netto	<b>731 499 999,93 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>379176693</b>

### Opis produktu

This single silicone hose fits between the metal pipe from the turbo down to the first intercooler on the VAG 210/225 hp four cylinder 1.8T engines. This hose is the ideal addition to our (FM225DVRLK) diverter valve relocation kit which contains the hose which connects to the inlet manifold.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty\*
