Cena brutto	6 600,00 zł
Cena netto	5 365,85 zł
Numer katalogowy	IS38S0TS

Opis produktu

Audi / Seat / Volkswagen 2.0 TFSI/TSI (IS38) STAGE 0 upgrade turbocharger Original IS38 turcharger often breaks after remapping, to eliminate this issue we have developed original size, but improved and reinforced Stage 0 turbocharger. It is designed for maximum durability while making light power improvements. To eliminate turbocharger weaknesses we fabricated custom design reinforced compressor wheel wih stronger backface, replaced original sleeve bearings systems with dual ceramic ball bearing system and added enlarged shaft with impoved 9 blades high exhaust flow design turbine wheel. Available options: Stage 0 turbocharger OEM look - will suite you perfectly when you need some discretion, exterior of this turbocharger cannot be distinguished from original. Stage 0 turbocharger Turbosystems look - with our well known glossy black compressor housing. Stage 0 Super core OEM look - fits directly to your original IHI IS38 turbine housing. Includes fully assembled CHRA with original exterior compressor housing. Does not include a turbine housing. Stage 0 Super core Turbosystems look - fits directly to your original IHI IS38 turbine housing. Same fully assembled CHRA but with our signature glossy black compressor housing. Does not include a turbine housing. Turbosystems IS38 Stage 0 turbocharger features: dual ceramic ball bearing; reinforced improved design machined from the solid compressor wheel; new design 9 blades turbine wheel; new shafts; balanced on VSR; Compatibility list Model Year Engine code Power (KW / HP) IHI nr.
