Twintercooler for the Audi A3 TDi

Cena brutto	5 293,36 zł
Cena netto	5 293,36 zł
Dostępność	Na zamówienie
Numer katalogowy	379174401
Kod producenta	FMINTA3TDI

Opis produktu

For the A3, with the 140 hp 2.0 litre TDi engine, we can offer a sure way to improve on the charge air cooling, by using the Forge "Twintercooler". Our ground breaking innovation, first proven on the 2 litre FSit engines, features our unique parallel intercooler configuration, which adds greater cooling efficiency throughout the entire RPM band, beyond that of a single intercooler setup, but without any perceived increase in turbo lag.

This is only suitable for 140 hp 2.0 litre TDi vehicles built up to the end of 2007.

- World's first "Twintercooler " technology.
- Unique Twin Core design retaining the OEM intercooler.
- 10-15 BHP increase on a stock car.
- Over 15 -20 Degree drop in ambient cooling temperatures
- Includes necessary hardware and instructions for installation.
- Dyno proven horsepower and torque gains
- High flow cast end tanks ensuring optimum air transition for cooling efficiency
- NO CUTTING of the vehicle is required to fit this product
- The unique Forge Silicon hoses supplied in the "Twintercooler " kit were designed on Solid works and have been created to include an expensive inner liner of modified silicone known as Flurosilicone.
- This liner means that the hoses are suitable for use with modern long-life coolants, Organic Acid Technology coolants (O.A.T.) and oil mist.
- The use of a Flurosilicone liner ensures that Forge silicone hoses are the best, longest lasting, and preferred choice of the discerning car enthusiasts.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically.
- This product has been "designed to last a lifetime "
- Beware of "Forgeries "

PLEASE NOTE: THE ORIGINAL O-RINGS/SEALS MUST BE RETAINED FOR USE ON THE FORGE HOSES
