Układ wydechowy XForce Hyundai I30 2018- N Performance 2.0L Turbo stal nierdzewna

Cena brutto	3 937,65 zł
Cena netto	3 201,34 zł
Cena poprzednia	4 049,69 zł
Dostępność	Na zamówienie
Numer katalogowy	331464693
Kod producenta	E2-HY30N-KITB

Opis produktu

Owners of **Hyundai's i30N** can now increase power and torque by removing a substantial factory restriction when upgrading to the **XFORCE** high-flow downpipe.

The huge 4" bore pipework and high-flow 100-cell motorsport catalyst combined, drop back-pressure significantly, releasing more power and more torque across the rev-range.

The large flexi maintains reliability by ensuring there's still plenty of compliance with regards to engine movement and this then finishes with a 3" bore OE break point, meaning it can be used as a direct bolt-on with the OE cat-back system if required.

Due to the substantial reduction in back-pressure, tuning to compliment the additional performance and to turn off the EML is recommended.

- 4" downpipe
- 4" 100 cell high flow race cat
- Non polished stainless steel
- Reduces to 3" outlet
- Will bolt to factory standard cat-back and Xforce cat-back systems
- Tune is recommended after fitment

Please note: This product is equipped with a 100 cspl sports catalytic converter which is dedicated for track use only and it may not pass the emission test. Please check if high efficiency catalytic converters can be used on roads in your country.

Xforce offers a range of uniquely engineered and designed stainless steel bolt on exhaust systems.

These exhaust systems bolt directly to existing mounting points making installation easy.

They are built to perform well, with materials designed for longevity and like all Xforce exhaust systems they look and sound great! - make it roar!
