Kod producenta	ES-VW08-KITB

Opis produktu

For VW Golf GTI MK7 and MK7.5 owners that want to achieve maximum peak power and torque output, the XFORCE downpipe delivers. Featuring 304-grade brushed stainless steel pipework, the large bore 3.5" into 3" downpipe and 200-cell race catalyst help to significantly reduce exhaust gas back-pressure, improving turbo response and overall peak power. A large euro-style flexi section is incorporated to both aid with installation and also to ensure compliance under engine rock and the downpipe assembly is also supplied with an adaptor allowing it to be used with either the XFORCE cat-back exhaust, or the OE rear exhaust system. 3.5" Cats stainless steel topReduces to 3" before flexEuro style flex bellows before hanger304 brushed finish Stainless steel 200 cell high flow racing catalytic converterOE & Xforce cat back adaptor included O2 sensor adapter BNG-08 not included in this kit Please note: This product is equipped with a 200 cspi sports catalytic converter which is dedicated for track use only and it may not pass the emission test. Please check if high efficiency catalytic converters can be used on roads in your country. Xforce offers a range of uniquely engineered and designed stainless steel bolt on exhaust systems.Theses exhaust systems bolt directly to existing mounting points making installation easy.They are built to perform well, with materials designed for longevity and like all Xforce exhaust systems they look great!
