Opis produktu

Are you ready to take your Hyundai Elantra N to the next level? Here at Xforce, we have fallen in love with the Hyundai Elantra N turbo vehicles. As soon as we tested our first cat back system we knew how special these Hyundai Elantra N vehicles can be. With our new Varex cat-back system, get ready to let your engine roar like it should while offering the ability to take it back a notch when you need the sophistication that you come to expect from a Hyundai. Our patented Varex muffler with vehicle-specific internal design adds a high-quality performance sound when in the open position whilst delivering quiet when you need it. To finish things off our 4.5" double wall polished tips compliment the rear of the vehicle perfectly. We know you will love this system just as we did in developing it. 3" Cat-Back System Mandrel Bent 304 Stainless Steel Includes Bolt in Resonator & Resonator Delete Single East/West VAREX™ Muffler with 3" inlet and dual 2.5" LH and RH rear bumper outlet 2.5" Tailpipes 4.5" Angle cut double wall polished tips
