### Opis produktu

The XFORCE cat-back exhaust system for the VW Golf R MK6 unleashes a truly iconic soundtrack for one of this generations most popular hot-hatches. The straight-through 3" bore and low back-pressure VAREX rear oval muffler design help improve performance, whilst allowing you to adjust your exhaust's sound output and tone via the touch of a button on one of the two supplied keyfobs. Packed with neat feature detail, the mandrel bent 304-grade stainless steel system is TIG welded throughout for aesthetics and longevity and is perfectly finished with a pair of double-wall slant cut 4" polished tailpipe trims. Polished stainless steel 3" pipe work Straight through sports muffler Varex Muffler with twin outlet Twin 4" tips Will fit to OEM downpipe and cat Xforce offers a range of uniquely engineered and designed stainless steel bolt on exhaust systems. These exhaust systems bolt directly to existing mounting points making installation easy. They are built to perform well, with materials designed for longevity and like all Xforce exhaust systems they look great! The unique header design increases power throughout the rev range, while providing a great engine audio note - make it roar! VAREX mufflers utilizes the patented technology to combine both the design technology of the stock muffler and the performance muffler into one single compact unit.
