Opis produktu

Mercedes GLA 250 - 2 Bolt underbody brace

Replace the tired OEM rear chassis brace with this high strength lightweight replacement (over 27% reduction in weight). Helps to improve chassis stiffness and reduce flex during hard cornering, acceleration and braking. Machined from 6000 series Aluminium alloy finished with a clear anodised coating.

- Limited warranty on the material and manufacturing processes. Due to the harsh environment of where this part is installed the anodised finish is not warranted.
- Simple to install. Remove OEM brace and install Forge brace with existing bolts.
- Designed in our dedicated Research and Development Facility in Gloucester in the UK.
- Replaces OEM Part number: AMG A 176 619 0125
