Opis produktu

GReddy LS Spec Type 24E Intercooler
Air/air intercooler for moderately modified turbo applications
Robust end tanks for high reliability
3 threaded mounting bungs for easy installation
To fit : universal
Core dimensions : 284 mm x 600 mm x 66 mm (H x L x W)
Weight : about 5.90 kg
Made in Japan
GReddy part no. : 12001402
GReddy Universal Intercooler Spec-LS T-24E
Specifications
This GReddy Spec-LS Type 24E universal air to air intercooler is ideal for increasing boost in moderately modified turbocharged applications. The tube and fin design features heavy-duty 60mm diameter end tanks with a brushed finish for excellent reliability and 3 threaded mounting bungs (1 top and 2 bottom) for easy installation. Lightweight and affordable, this Spec-LS intercooler is positioned in terms of performance in the GReddy range between the free-flowing Spec-V and the extreme cooling potential of the Spec-R cores.
Technical data :
Internal core size : 88 cm x 28.5 cm x 7 cm
Unit weight : about 5.90 kg
Core hole : 7 cm
