### Opis produktu

Upgrade your classic BMW's differential with our Universal Aluminum Speed Sensor Holder, designed to fit seamlessly over the speed sensor on differential covers. Compatible with a wide range of BMW models before the year 2000, including E30, E34, E32, and more, this holder ensures a perfect fit regardless of the differential size. Why Choose Our Speed Sensor Holder? Universal Compatibility: Whether you own an E30, E34, E32, or any other pre-2000 BMW model with a conventional speed sensor on the differential, our holder is designed for a universal fit. Durable and Rust-Free: Crafted from high-quality aluminum, this speed sensor holder stands the test of time. Unlike the original differential components, our holder is completely rust-free, ensuring longevity and reliability. Aesthetic Upgrade: Available in various anodized colors, this speed sensor holder not only enhances the functionality of your BMW but also adds a nice touch to the differential rebuild, making it stand out. Easy Installation: Designed with simplicity in mind, our speed sensor holder can be mounted effortlessly, providing a secure fit over the speed sensor without the need for complex tools or modifications. Revitalize your classic BMW with this essential upgrade. Our Aluminum Speed Sensor Holder is the perfect blend of form and function, offering a rust-free solution and an aesthetic upgrade in one package. Make your differential rebuild complete with this stylish yet functional accessory.
