Cena brutto	1 618,89 zł
Cena netto	1 316,17 zł
Dostępność	Na zamówienie
Numer katalogowy	331388042
Kod producenta	MMBCC-UNI-BL

Opis produktu

Mishimoto is proud to announce the release of our Baffled Oil Catch Can. With over a year of research and development time, Mishimoto has created the most effective oil catch can on the market. The Mishimoto Baffled Oil Catch can was designed to separate oil particles from the PCV air that would normally have just been routed back to your intake. Custom grooves in the catch can's inlet turbulate the air longer and ensures all the oil sinks to the bottom of the can, leaving nothing but clean air to pass through the 40 micron bronze filter to the intake. An internal baffle keeps the collected oil from splashing around under race conditions. The 100% billet, 6061 aluminum can accepts "AN fittings at the inlet, outlet, and drain area allowing over 25 possible configurations. For maximum fitment options, the top cog mounting setup allows the can to be mounted from multiple angles. To make maintenance easy, the drain plug can be removed to allow for "AN return to the oil pan. The can is also 100% washable, unlike many other cans that require you to replace your filtration system. The Mishimoto Baffled Oil Catch Can is available in a variety of colors as well, so it will be sure to match your style and taste!
