Opis produktu

This is a replacement for OEM part number 17517617597

As the preferred and official supplier of to www.minichallenge.co.uk Forge Motorsport is proud to present our for the Mini Cooper 1.5 Turbo F56 Chassis.

Our core offers a **123% increase in frontal area** over stock (BMW Part no **17517617597**). As the originators of the stepped core design way back in 2006, Forge Motorsport is best placed within the market to call on our vast expertise in order to deliver a direct fit that would enhance the performance potential of the BMW Group 1.5 Turbo 3 cylinder engine.

Our end tanks are die cast in aluminium for improved internal flow characteristics, developed from 3D printed prototypes that we manufactured in-house at our dedicated R&D facility in Gloucester, UK. The bar and plate core design we have used comes after months of testing different core designs and opting for the core with of internal, external airflow and heat transfer characteristics.

The Forge Motorsport intercooler variant compatible with your model can be ascertained by viewing the stock intercooler through the front grille and counting the number of horizontal cooling tubes. If your model has seven cooling tubes the intercooler (FMINT8) is a match for your model, and [FMINTMF56](#) if your model has eleven cooling tubes.
