Opis produktu

This will fit engine codes CCZA, CCZB, CCZC, CCZD

Forge has developed this turbo outlet muffler delete pipe for the 177hp 2.0 petrol turbo (TSI)

It has been designed with 3 points of contact to eliminate any possibility of resonance. This part will improve the sound of your turbo spooling and improve response due to its sleek single billet design that eliminates the restriction and turbulence caused by the OEM part.

To confirm compatibility, we have found that this will fit the vehicles that have a MAF sensor in the intake pipe as illustrated below.

We recommend that you give yourself 2-3 hours to install this Forge Product
