Opis produktu

This re-inforced silicone intake hose fits the 1.6 litre Astra GTC (J type model). Due to its location it really improves the looks of the engine compartment and removes any restriction of the OEM pipe. These are available in red, blue or black. Please select your choice in the options below when ordering.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
