Vauxhall Astra VXR Silicone Breather Hoses

Cena brutto	226,55 zł
Cena netto	226,55 zł
Dostępność	Na zamówienie
Numer katalogowy	379173182

Opis produktu

This set of two breather hoses for the Vauxhall Astra VXR are both fluoro lined to prevent oil leaking through the silicon and discolouring it over time. They replace the main breather hose at the front right of the engine and the small breather hose at the rear of the engine next to the throttle body.

The hoses are available in red, blue, and black - simply select your choice in the options above. You can also have the hoses supplied with the appropriate hose clamps. If you wish to have these, simply select this in using the drop down box above.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
