Dostępność	Na zamówienie
Numer katalogowy	379176320
Kod producenta	FMLFT1
Kod EAN	*5056721224213*

Opis produktu

With the release of the VW MQB Alltrack/Tiguan line up from Volkswagen comes the desire to raise the vehicle for more ground clearance. Forge Motorsport has taken **several vehicles through the testing process** to determine the maximum lift while still giving the vehicle a factory ride.

We worked closely with Smith VW to make this possible. Limited to the amount of room that the factory axle will move, **this kit provides a 1.25" total lift** while leveling the front of the vehicle with the rear.

Features:

- Easy bolt-on installation
- Maintains factory ride quality
- Increased ground clearance
- Levels the front with the rear of the vehicle
- No need to disassemble your struts to install
- Kit will include 4 spacers (2 Fronts and 2 Rears) as well as mounting hardware for the front Strut-Spacer. Rear kit will reuse existing bushing insert.
