Opis produktu

Another great product to add to our lineup of Lift Kits! Forge Motorsport has taken several vehicles through the testing process to determine the maximum lift while still giving the vehicle a factory ride. Limited to the amount of room that the factory axle will move this kit provides a 1.50" total lift while leveling the front of the vehicle with the rear. We have recently partnered with [Powerflex](#) to improve upon this product! Now with lower prices and better stock!

Features:

- Easy bolt-on installation
- Maintains factory ride quality
- Increased ground clearance
- Levels the front with the rear of the vehicle
- No need to disassemble your struts to install
- Kit contains 4 spacers (2 Front and 2 Rear) as well as mounting hardware for the front Strut-Spacer.
- Vehicle Pictured is lifted beyond our standard lift kit by custom means.
- *Hardware Color will Vary based on supplier

Fitment:

Audi Q3 2015
Volkswagen EOS 2006 - 2016
Volkswagen GOLF 2003 - 2008
Volkswagen GOLF 2007 - 2009
