Opis produktu

This Forge Motorsport intake kit is for the VW Polo, Skoda Spaceback, and Seat Toledo 1.0TSI. Our intake kit includes a **bespoke aluminium housing**, powder coated black for that OEM look and hard wearing finish. This has a dual purpose of drawing air from the cold air inlet on the slam panel and shielding that cold air from the heat of the engine.

The Forge silicone hose has a larger bore and smooth finish inside giving optimum flow and comes in a choice of 3 colours; black, red or blue. Please select colour from the drop-down list.

PLEASE NOTE: THIS PRODUCT WILL NOT FIT 2018 ONWARDS MODELS

- The construction of this hose has been engineered to exceed that of the OEM fitments and will enhance any engine bay both technically and aesthetically
- **Lifetime warranty***

- Washable and reusable design.
- Layered multi-density foam technology.
- Designed and manufactured in Great Britain.
- Improvement in engine power and torque with superior engine protection from dirt and dust ingress.
- Designed to flow stronger for longer.
- Fitting is straightforward and can be completed in 20-30 minutes.
- This kit requires no cutting or modification to the vehicle, allowing it to be reversed back to stock.

The filter is manufactured to Forge's specifications by [Pipercross](#) - ***Please note - the Pipercross filter is excluded from the Forge lifetime warranty*** For the filter replacement, please click this [link](#)

Please watch [our video](#) on how to fit an air filter without damaging it.
