### Opis produktu

LS V8 Engine Truck Camshaft. Good increase in torque over the entire rev range for your 'Truck'. The 'EZ' has been designed to work with your OEM valve train and stock valve spring. Works great for off road and towing applications. Kelford Cams recommend changing the valve spring to KVS1518 if the engine has high mileage. \n \n \n click to view all LS Engine Camshaft Profiles \n \n \n
