Opis produktu

The Hyper-Gate45 is a 45mm external wastegate designed with minimum size and maximum flow in mind. Smaller and lighter than the previous model, the new Hyper-Gate45 features a unique locking collar design for reduced size and quicker spring changes. Supplied With: Inlet and Outlet Stainless Weld Flanges, Inlet and Outlet V-Band Clamps, 1/16 NPT Hose Barbs (5mm), 1/16 NPT Port Blanking Plugs, Locking Collar Tool, Valve Seat, Brown/Purple 7psi Middle Spring and Brown/Pink 7psi Outer Spring (installed). Suitable for medium-large capacity engines with medium frame turbochargers systems. Street and racing applications. Suits 1 7/8" outside diameter tubing. Fits all popular 44mm flanges.
