Opis produktu

Before fitment, please ensure the spacer fits flat to the back of the wheel. Please also test for clearance after fitment at the wheel arch under full right and left wheel lock.

Extended wheel bolts are not supplied.

These wheel spacers are hubcentric. These have a bore size of 65.1mm.

These CNC machined precision alloy wheel spacers are available in 16mm and 20mm thickness with a 65.1mm bore and 5 x 120mm PCD stud bolt pattern.

The spacers are anodised black to inhibit corrosion and "bonding" to the wheel or hub and are machined with an alloy spigot to allow centering on the hub (often called "hubcentric" spacers).

These spacers are suitable for various VW vehicles, please check the compatibility list.

These spacers are priced and sold per pair.

Please choose required size from the drop down list.
