Cena poprzednia	1 217,69 zł
Dostępność	Na zamówienie
Numer katalogowy	331431487
Kod producenta	TS-0203-1266

Opis produktu

This little blow-off valve might look small, but it's anything but light on performance. With its billet aluminium construction and a light-weight brass/aluminium two-piece piston, which is then perfectly matched with precision engineered springs, the Shortie provides razor sharp boost response and significantly greater boost handling abilities, up to a massive 30PSI. The Plumb Back is a fully recirculating BOV, so its operation is quiet and won't draw any unwanted attention. It seamlessly integrates with the vehicle's standard mapping, so it's perfect for the driver seeking big performance from their ST while keeping under the radar.

Like the Dual Port, the Plumb Back Shortie is a direct replacement for the Fiesta's standard plastic blow-off valve, which can leak and crack, especially under increased boost pressure. The Shortie is a far more durable replacement, and it bolts right up to the Ford's turbo compressor cover, letting you turn up your Fiesta's performance without costly custom work.

Supplied With:

Kompact Shortie Plumb Back BOV, Boost Reference Adapter, All Necessary Plumbing, Resister Pack for Factory Valve Plug.
