Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>331431444</b>
Kod producenta	<b>TS-0203-1271</b>

### Opis produktu

Turbosmart's Kompact valve kit has been developed as a direct plug-and-play solution for the Suzuki Swift Sport, Vitara S, Vitara Sport and SX4 S-Cross.

The Kompact holds boost in better than the factory valves, and can never be overcome by boost. The result is more efficient performance from the factory turbochargers, as well as the crisp sound of a piston-style BOV. For those who want blow-off valve sound, the Dual Port both vents-to-atmosphere as well as recirculates air (TS-0203-1071 DP version), while the Plumb Back is 100% recirculating for quiet, OEM-style operation.
