### Opis produktu

Turbosmart GenV Raceport 50mm Blow Off Valve suit Nissan Skyline GT-R R32, R33 and R34. This is designed as a bolt-on solution for RB26DETT drivelines and replaces the factory blow off valve plenum & simplifies the system with a single, 50mm Raceport Blow Off Valve capable of flowing over 1500HP. The TurboSMART RacePort is famous for being an amazingly small and light Blow Off Valve for turbocharged competition level engines. Featuring our unique collar design and internal flow structures, it is 50% lighter and 25% smaller than the competition while flowing 330 CFM – making it the highest flowing BOV of it's type on the market. Features Billet 6000 series aluminium construction Quick release V-Band Collar 2.0" Inlet flows over 330 CFM Mil Spec hard anodized valve guide and stem Hi Temp Silicon Nomex diaphragm Positive sealing valve seat Twin 1/8 NPT pressure ports for convenient positioning 5 user configurable corrosion resistant springs available Valve position sensor option (Available Separately)
