Zawór blow off BOV Turbosmart TS-0207-1001 Power Port

Cena brutto	2 553,00 zł
Cena netto	2 075,61 zł
Cena poprzednia	2 625,65 zł
Dostępność	Na zamówienie
Numer katalogowy	331053604
Kod producenta	TS-0207-1002

Opis produktu

The PowerPort is Turbosmart's most significant and highest-flowing blow-off valve, resetting the flow benchmark set by our popular and highly regarded RacePort Blow Off Valve and designed to be as light as possible to keep vehicle weight down. Its cutting-edge dual-chamber design is capable of advanced control strategies. It can be held open with a solenoid to aid turbo response and control during staging to give the best possible launch for drag racing, etc.

Flowing Over 600CFM via its 2.5" (63mm inlet), this diaphragm-operated valve is built to flow vast amounts of air for High Horsepower Applications while providing marketing-leading response and boost handling. Twin Port Control allows for advanced control strategies. Some options include an onboard valve position sensor and part numbers specific to Supercharged Applications. However, it can also be used with a traditional single-port hookup.

Available in

Black: TS-0207-1002

Blue: TS-0207-1001

Sensor Cap (Black Only): TS-0207-1102

Supercharger (Black Only): TS-0207-1003

Features

Billet 6000 Series Aluminium Construction

Quick Release V-Ban Collar for ease of fitment & serviceability

2.5" Inlet & Flows Over 600 CFM

MILSPEC Hard Anodised Valve

1/8NPT Reference Fittings (Twin Port)

Collar Secured Cap for Quick Spring Changes & Servicing

3 User Configurable Corrosions Resistant Springs

Optional Valve Position Sensor

Pre-Drilled Collar for Lockwire provision

Designed, Manufactured and validated in Australia
