Opis produktu

The GenV WG45 HyperGate45 External Wastegate is a Motorsport-proven, cost-effective 45mm external wastegate - The highest flowing gate of its kind. The GenV provides extensive user configuration, world-leading extended thermal performance, fatigue resistance and best-in-class flow performance for optimum control and longevity. The GenV External Wastegate from Turbosmart was a ground-up rework of a classic, and the only feature that rolled over from the Gen4 range was the mounting orientation. CFD optimized and validated in-house for maximum flow and thermal management; the GenV Range has more features, options and performance than any other gate. A direct fit upgrade to all Gen4 Turbosmart wastegates and feature our unique collar-locking system, variable actuator cap and base for easy, 360-degree optional routing of reference hoses, strap-type Vband clamps, optional liquid-cooling provision, 1/8" NPT reference ports and are provided with the full range of available springs. Available InBlack, Blue, Red, Purple and Sleeper coloursWastegate Position Sensor Optional UpgradeCompressed Gas / Co2 VersionMotorsport / Extreme Temp VersionElectronically Actuated / eWG VersionHigh Pressure (Up to 50psi Base) Version FeaturesClass Leading Thermal Performance Class Leading CFD & Bench Validated Flow PerformanceClass Leading Fatigue ResistanceOptional Liquid Actuator CoolingOptional Position Sensor Available SeparatelyRotatable / Clockable Actuator HousingNitronic 60 Valve Guide & High Temp 347 SS Body17-7 PH Stainless Steel SpringsStrap Type V-band clamps
