### Opis produktu

The GenV HyperGate45 Lite external wastegate is a cost-effective, high performing 45mm external wastegate with a compact actuator for use in engine bays with limited space. The GenV provides extensive user configuration, world-leading extended thermal performance, fatigue resistance and best-in-class flow performance for optimum control and longevity. A direct fit upgrade to all Gen4 Turbosmart wastegates and feature our unique collar-locking system, variable actuator cap and base for easy, 360-degree optional routing of reference hoses, strap-type Vband clamps, optional liquid-cooling provision, 1/8" NPT reference ports and are provided with the full range of available springs.
