Cena poprzednia	1 078,86 zł
Dostępność	Na zamówienie
Numer katalogowy	331389952
Kod producenta	MMRT-MIA-16TP

Opis produktu

Simplify, then add washer fluid. That's how the saying goes, right? Add even more lightness and style to your already-lightweight and stylish roadster with the Mishimoto Washer Fluid Reservoir for the 2016+ Mazda Miata ND.

Replace your heavy, unsightly plastic reservoir and leaking stock cap with this beautiful, all-aluminum TIG-welded tank designed to save your car some weight - and it won't leak a drop, thanks to our specially-designed venting system. Engineered right here in Delaware, we designed this tank not only to look great, but specifically to reduce washer fluid capacity by .75 gallons, saving you 6 pounds compared to the stock unit when full. You could go on a diet and exercise every day for the next month, or pick up this tank instead and save just as much weight on the track without foregoing those steak dinners you love so much. Your call.

Available in a chic polished aluminum shine or a matte black powder coated finish for a more understated look, this tank ships with the Mishimoto Lifetime Warranty so your windshield will always be just as shiny as those autocross trophies.
