Opis produktu

FMIC.EU – Intercooler Silicone Hose Kit for Fiat Coupe 2.0 20V GT Turbo The intercooler silicone hose kit for Fiat Coupe 2.0 20V GT Turbo includes high-quality silicone connectors, precisely designed to replicate the original piping. This ensures perfect fitment, easy installation, and reliable performance. Premium Quality Construction: Manufactured from top-grade, multi-layer reinforced silicone. Resistant to high temperatures, boost pressure, and oil vapors. Strong and durable, yet highly flexible. Provides a much longer service life than OEM hoses, which often harden, crack, or lose elasticity. Why Choose FMIC.EU? Europe's widest range of silicone hoses – available in multiple sizes, types, and colors. Perfect for upgrading or building a complete intake or intercooler system. Trusted by tuning workshops and Fiat enthusiasts worldwide.
