Opis produktu

Upgrade Your Mustang's LSD with RacingDiffs High-Performance Clutch Plate Kit Enhance the performance of your Ford Mustang's 28 Spline Limited Slip Differential (Traction-LOK) with our High-Performance Clutch Plate Kit. This kit is a direct replacement for the OEM clutch set, requiring no modifications. With a friction coefficient three times higher than the factory set, our clutch plates provide superior grip and longevity, ensuring your differential performs at its best. Fitment: Fits Ford 8.8 inch Traction-LOK Limited Slip Differential (Posi) units found in Mustang (1985-2014). Why Choose RacingDiffs Clutch Plate Kit? Improved Friction Coefficient: Provides significantly more grip than OEM plates. Increased Diff Lock: Ensures better locking capability for enhanced performance. Superior Durability: Designed to last, reducing the need for frequent replacements. Less Wear: The solid plate construction prevents the lift-off of the friction layer, a common issue with OEM plates. Enhanced Heat Resistance: The Molybdenum-Ceramics friction layer offers optimal friction and wear resistance. Lifetime Warranty: Enjoy peace of mind with our unlimited lifetime warranty. Key Features: Solid Plate Construction: Prevents lift-off of the friction layer, ensuring consistent performance. Advanced Friction Coating: Molybdenum-Ceramics layer provides the perfect balance of friction and wear resistance. Easy Installation: Direct replacement for the stock clutch set, with no modifications needed. Optimal Performance: For best results, RacingDiffs recommends using Motul Gear Competition 75w140 oil with our products. OEM Part Number: M-4700-C Upgrade and Maintain Your Mustang's LSD: Transform your driving experience with our high-performance clutch plate kit, designed to provide maximum grip, durability, and performance. Trust RacingDiffs for all your differential needs.
