Kod producenta	MMHP-GRB-2424

Opis produktu

Protecting vital engine components from heat is tough, especially when it comes to fitting into the nooks and crannies of the engine bay. Mishimoto has devised a solution with our Gold Reflective Barrier. Our heat barrier is constructed from metalized polyamide polymer laminated glass cloth for protection of up to 850 F of continuous heat. This heat barrier also features an adhesive backing for simple installation on uneven and tight spaces and can be easily trimmed to suit the installation space. The Gold Reflective Barrier is available in two sizes, 12"x24" and 24"x24" to fit the size of your project and includes the Mishimoto Lifetime Warranty.
